For a year and a half of operation, there were no particular problems, and the fact that such a car as Renault appeared on the market turned out to be the right place and time. So, in our city there are several new dealers who do not hide their plans for the further development of the market. We made the right choice and no longer doubt the correctness of our choice. Of course, of course, everyone knows that buying a car on credit is not the most profitable option, but AUTO-TEST also, in turn, has an excellent credit history and solid turnover - for the entire time we have issued loans in the amount of about 15 million rubles, # ##-GB), H (Hungarian), PL (Polish), RO (Romanian)] | 4.11 GB.
