Japanese Eye Screensaver is a beautiful animated screensaver for your desktop. This is a high definition screensaver that will present you a high definition image of a typical city street and a very famous landmark: the London Eye. In summer it is possible to see the ferris wheel surrounded by small lanterns. The best feature of the screensaver is that it is not a single piece of flash file. It is a screensaver with good quality JPG images. It is a collection of images from various angles that gives the feeling of the whole Ferris wheel. It's easy to use and has a neat interface. Just choose the landscape or portrait mode, activate the Ferris wheel and choose a moment when the wheel moves fast to make it look nice and realistic. Features include: high definition screensaver, presentation of a high resolution image of a city street, slow

or fast motion, filter of time, landscapes, portrait mode, rotating view, nice presentation with good quality JPG images, customizable speed, customizable rotation of the Ferris wheel, good looking picture and many more. This screensaver is absolutely free, it is provided ad-free for your enjoyment and for your browsing pleasure. Program Features: - Fast and slow motion of the wheel. If your computer has enough resources the screen will even flicker fast and slow. - An image of a Ferris wheel and lanterns if available. - Landscapes and portrait. In landscape mode you can have a panoramic view of the city from a high way. - If a photo of the Ferris wheel is not available we show a photo of a similar sculpture of a Ferris wheel. - Change of time. You can set the time when a panoramic picture will be taken. - Customizable speed of the screensaver. You can choose whether the wheel will go fast or slow. - Rotate. You

can select any direction the Ferris wheel will turn. - Filter of time. You can set a filter for a time when the Ferris wheel will turn and move. - You can add a toll to the Ferris wheel. Just choose a period of time. If it passes without moving during the time it will be a toll for some minutes. - Click to rotate the Ferris wheel. It is possible to click on the right mouse button and the Ferris wheel will rotate. - You can add a picture to the Ferris wheel. The picture can be any resolution
