Q: TextStream does not work as expected I am trying to make a GUI app that can show dialogs with text messages. I have a.properties file that defines what message is to be displayed. TextStream is used to convert the.properties text to a dialog message This is my class code public class MyApp { public static void main(String[] args) { try { Properties pt = new Properties(); pt.load(new FileInputStream("myApp.properties")); String key = "mainkey"; key = String.valueOf(pt.getProperty(key)); ObjectInputStream in = new ObjectInputStream(System.in); String message = (String)in.readObject(); System.out.println(message); javax.swing.JOptionPane.showMessageDialog(null, message); // javax.swing.JOptionPane.showMessageDialog(null, key); } catch (FileNotFoundException e) { e.printStackTrace(); } catch (IOException e) { e.printStackTrace(); } } } The dialog message shows, however, without the key information. However, if i change the code like this, it works. public class MyApp { public static void main(String[] args) {
